EF2000iS

2 kVA petrol powered inverter generator.

Power Rating: 2000 W

Introducing the brand new EF2000iS Inverter Generator: powerful, portable and super sleek with lots of great features for camping and recreational use, making it the perfect companion in a motorhome or caravan.

The EF2000iS has enough power to run a microwave oven, a camping fridge, a kettle or a television. It is fitted with a newly designed muffler and air filter to achieve super quiet performance and because of its advanced Noise Block sound reduction system you can have a conversation without having to raise your voice.

... SMALLER, LIGHTER, QUIETER AND OUTPERFORMS THE COMPETITION!

MODEL	EF2000iS	COMPETITOR
Maximum Output	2000 Watts	2000 Watts
Rated Output	1600 Watts	1600 Watts
Operating Hours (Full Load)	4.2 hr	4 hr
Operating Hours (1/4 Load)	10.5 hr	10 hr
Fuel Tank Capacity	4.4 L	4.1 L
Size (LxWxH)	490x280x445 mm	510x290x425 mm
Dry Weight	20 kg	21 kg
Noise Level (1/4 Load / 7m)	51.5 dBA	54 dBA (Eco On)
Starting System	Recoil	Recoil
Fuel Gauge Monitor	Yes	No
DC Output	Yes	Yes

Yamaha Data, July 2009.

FEATURES AT A GLANCE

- The Lightest Generator in its class weighing only 20 kg.
- USFS-Approved Spark Arrestor eliminates errant sparks.
- TwinTech™ Capability enabling you to connect two EF2000iS' for 3.8 kVA of maximum power.
- OHV Engine With Cast Iron Cylinder Liner for longer life, powerful performance and excellent heat dissipation.
- Smart Throttle™ varies engine speed based on load to improve fuel economy and reduce noise.
- Inverter System with PWM (Pulse Width Modulation) to safely run products with built-in microcomputers or micro computer-controlled equipment / tools.
- Petrol Petcock helps prevent carburettor contamination during storage.
- Oil Warning System prevents engine damage.
- Fuel Gauge displays fuel levels without having to open the fuel cap.
- Auto-Decompression System reduces compression for effortless starting.
- Electrical Overload Breaker prevents generator damage in case of overload.
- Controls Located On One Panel for easy access.
- DC Outlet with 8 Amp / 12 Volt outlet for charging batteries (cables included).
- Rubber Isolation Feet for smooth operation and noise absorption.
- Easily Detachable Side Panels for easier serviceability.
- Noise Block™ Sound Reduction System for performance so quiet, you'll forget the generator is even running.
- Multi-Polar Alternator for the generation of high quality, high frequency 3-phase AC current. This means a much lighter and a more compact unit when compared to conventional 2-pole rotor type alternators.
